Circuit de Barcelona-Catalunya

Season 2023

The world of motoring from the most exclusive perspective

Circuit de Barcelona-Catalunya has established itself as the motor racing venue in Southern Europe, something that is reaffirmed by its more than 30 years of history.

However, this achievement does not only come from the sporting competition. Circuit de Barcelona-Catalunya is a multi-purpose facility suitable for holding all kinds of events in a completely unique way, showing off its exceptional environment and linking it to top-level competition.

New commercial opportunities and a greater advertising impact are some of the advantages offered by the Circuit, becoming your best ally in a unique enclave and only 20 minutes away from the city of Barcelona.

Located above the pits, it is one of the most valued experiences at the Circuit. It allows you to experience the excitement of the races, the atmosphere of the paddock, the intensity of the starting grid and to see how the winner crosses the finish line.

It provides comfort and distinction to make the experience of watching the motorbikes live more pleasant than ever. It is also an ideal space for organisations that want to strengthen their relationships with customers or collaborators. A networking platform that allows you to share emotions, strengthen ties and boost business.

The link with the Circuit is also a commitment to the continuous improvement of environmental behaviour, based on the 3Cs “Conscience, Commitment, Coherence”, being the first circuit in the world to obtain the ISO 14001 certification. The Catalan track has other certifications that accredit that its management contributes to achieving the Sustainable Development Goals (SDGs) of the UN Agenda, as well as other recognitions.

Now, the Circuit is following a roadmap set out in a new Strategic Plan, which aims at making the Circuit a key infrastructure for the country’s industry, with a clear commitment to innovation, digitalisation and sustainability.

Your partnership with us is, therefore, the joining of forces in the mission “Driving for a better future” to actively contribute to achieve environmental, social and economic balance.
